	Admissions Committee Meeting. Mr. Lammerman's Office, 12:30 p.m.
Friday, April 4	

President Jack Nolan was the Massachusetts State Colleges' representative to a legislative workshop held recently by the Association of American State Colleges and Universities (AASCU). The workshop included meetings with education committee members from both houses of Congress, as well as a White House briefing. Since the White House has not yet developed a position on education, the briefing dealt with the organizational structure of the White House staff and the energy and economic programs of the administration.

President Nolan, as Chairman of the Cultural Affairs Committee of AASCU, is providing local leadership for the planning of the AASCU annual meeting to be held in Boston in November. The theme of the annual meeting will be "Focus on the Arts."

Another education group, the International Association of College and University Presidents, is holding its annual meeting in Boston at the same time -- its first annual meeting in the United States. Some of the two groups' sessions and activities will be held jointly, adding an interesting dimension to the AASCU program. Planning sessions for this meeting were held in Washington to coincide with the legislative workshop.

Ilona von Karolyi participated in the sessions as a guest of AASCU, and she will be involved in the continuing planning for the November conference.

The Legislators open house, held on March 5, can be considered a success. A total of eighteen legislators attended, including members of the Ways and Means and the Education Committees, who seemed delighted with the opportunity to visit the school and appeared to be genuinely impressed with what we have been able to do with our limited resources. Several expressed their appreciation of the opportunity to see the college at first hand and to meet some of its people.

There was a clear message: If there were money to be spent on education, we would be first in line. Since there probably is not, we will have to make do with what we have for a while, but we can expect things to be better in the future. They all seem to wish us well.

The Student Government eating facility at Fullerton has been operating for over a month now. Financially the facility is now "breaking even" -- in spite of the fact that in the second week of operations the refrigerator broke down over the weekend and several hundreds of dollars worth of food had to be destroyed.

This is truly a cooperative venture on the part of a few students who care. On the weekend before opening Kathy McCutcheon, Gail Hendricks, Maryann Wisinski, Kathy Goodway, Walter Lieberman and Claudia Sanford scrubbed floors, counters, stove and refrigerator for a bright and shiny opening day. Christine Jenkins gave many hours to planning menus and procurement of supplies. A lot of people said their venture couldn't succeed -- BUT IT DID!

The original idea was not only to offer a food service to people at Fullerton and Overland, but to make a profit for Student Government to use for scholarships, improved health services, and to provide cafeteria jobs for students. Claudia Sanford, SGA President, asks that you drop by and sample what they have to offer.

The College hopes to purchase furniture this summer for a student lounge adjacent to the cafeteria. In the meantime, student Barry Green has made arrangements with Kinkaid Furniture Company to donate two couches and a coffee table.

The present menu offers:

Snacks: Fruit, cookies, doughnuts, coffee, milk, tea, tonic, yogurt, pastries.

Lunch: Sandwiches, soups. Self-service in concocting your own combinations.

COME, EAT, ENJOY - from 10:30 a.m. to 3:00 p.m. daily!

A note from Ernie King:

To All My Friends,

I wish to since rely thank all those who contributed to the mini-vacation check which was given to me. It was very unexpected, and to receive two gifts was more amazing.

I also wish to thank all those who sent me get-well cards. I received very many of those. I wish to also thank the school newspaper for the article published.

Please accept my heart-felt thanks for all your kindness.

Sincerely,

Ernie

Charlotte Horblit (Art Education Division) has submitted a report on a variety of teaching and learning centers located in the Boston area. The specific strengths of each center in terms of materials, staff and physical plant as well as philosophy and policy are described. The report is geared to the interests and needs of MCA. Copies have been distributed to the administration and to the Art Education Division.

Additional information gained from on-site interviews and observation includes Learning Disability Centers.

SCULPTOR ROSE SHECHET MILLER HAS EXHIBIT AT M.I.T. FACULTY CLUB -

An exhibition of work by the sculptor Rose Shechet Miller, of Brookline, is currently showing at the Massachusetts Institute of Technology Faculty Club through the months of March. The exhibition of more than 24 sculptures is mounted in the Club lounge and corridor. It includes some of her most recent work--a series of abstract works on the elements earth, air, wind and fire--that are executed in metal and representational figures in bronze, terra-cotta and welded steel.

Mrs. Miller is a graduate of Massachusetts College of Art, teaches privately and gives sculpture courses at the Boston Center for Adult Education. She is an active member of several art groups, among them the Boston Visual Artists Union and the New England Sculptors Association. Her sculptures have won several New England awards and are part of numerous private collections in this area. Her work has been widely exhibited in group shows at private galleries around Boston and larger shows at the Boston Center for the Arts, Boston City Hall, the Center for Arts and Sciences at Nashua, N.H., and in the Boston Visual Artists Union exhibition at the Institute's Hayden Gallery in 1973. A selection of her works will be included in an exhibit at the Attleboro Museum in May.
